

PRAKASH MAHESHWARAN

Binghamton, New York | pmaheshwaran@binghamton.edu | linkedin.com/in/prakash-maheshwaran

EDUCATION

Binghamton University, SUNY – M.S. Computer Science (AI) | Expected March 2026 | GPA 3.74/4.00 | Clark Fellowship

Relevant Coursework: Programming Language, Design Patterns, Machine Learning, Introduction to Cloud Computing

VIT ICER, Bangalore – Postgraduate CS (AI Track) | March 2024 | GPA 3.80/4.00

Relevant Coursework: Data Structures and Algorithms, Machine Learning, Artificial Intelligence, Big Data Analytics

CAHCET, Anna University – B.Sc. Information Technology | March 2023 | GPA 3.30/4.00

Relevant Coursework: Problem Solving and Python Programming, Object-Oriented Programming, Data Structures, Software Engineering

TECHNICAL SKILLS

Languages: Java, Kotlin, Swift, Python, C++

Specialized Skills: Android Development, iOS Development, UI/UX Design, RESTful APIs, Git, Agile Methodologies, Version Control, Mobile Architecture

Technologies: Application Performance Optimization, Cross-Platform Development, Database Management, Unit Testing, Integration Testing, Debugging, Code Review, SDK Integration

Other Expertise: Firebase, AWS, Docker, Kubernetes, Jenkins, JIRA, Confluence, Android Studio, Xcode, VS Code

Certifications: Introduction to Mobile App Development, Android Basics by Google, iOS Development Basics

PROFESSIONAL EXPERIENCE

SUNY Research Foundation Assistant | New York, USA | March 2025 – Present

- Assisted in developing and testing new features for an Android application, resulting in a 15% reduction in reported bugs.
- Collaborated with senior developers on UI/UX enhancements, improving user engagement metrics by 10%.
- Participated in daily stand-ups and sprint planning, contributing to agile development processes.

Sun Networks Intern | Vellore, India | Jan 2023 – Mar 2024

- Developed and implemented key components for an iOS application using Swift, meeting all functional requirements.
- Performed comprehensive testing and debugging of mobile builds, ensuring stability and performance.
- Documented technical specifications and code implementations for future reference and maintenance.

PROJECT EXPERIENCE

E-commerce Mobile Application | Chennai, India | Jul 2023 – Feb 2024

- Problem:** Develop a scalable and user-friendly e-commerce platform for mobile devices.
- Approach:** Implemented native Android and iOS versions using Java/Kotlin and Swift, integrating with a RESTful API for product catalog and order management.
- Impact:** Achieved a seamless user experience with efficient product browsing, secure checkout, and real-time order tracking, enhancing customer satisfaction.
- Features:** Implemented features such as user authentication, product search, shopping cart functionality, and payment gateway integration.

Task Management Mobile App | Chennai, India | Mar 2023 – Jul 2024

- Problem:** Create an intuitive mobile application to help users organize and track their daily tasks.
- Approach:** Designed and developed a cross-platform application using React Native, focusing on a clean UI and robust data synchronization.
- Impact:** Enabled users to manage tasks effectively with features like reminders, categorization, and progress tracking, boosting personal productivity.
- Technology:** Utilized local storage for offline access and cloud-based backend for data backup and multi-device synchronization.

Social Networking Mobile App | New York, USA | May 2023 – Oct 2024

- Problem:** Design a mobile app to connect users with shared interests and facilitate communication.
- Approach:** Developed a native Android application with a focus on real-time chat features and personalized content feeds.
- Impact:** Facilitated user interaction and community building by providing a platform for easy communication and discovery of like-minded individuals.
- Enhancements:** Integrated push notifications for new messages and friend requests, ensuring timely user engagement.

WHITE PAPERS

Optimizing Mobile Application Performance for Enhanced User Experience | Int'l Journal of AI Research | August 2025

- Explores techniques for identifying and resolving performance bottlenecks in mobile applications, including memory management and network efficiency.

- Discusses strategies for efficient background processing, asynchronous operations, and reducing application launch times.
- Provides actionable insights for developers to deliver faster, more responsive, and power-efficient mobile applications.

Leveraging Cloud Services for Scalable Mobile Application Backends | Preprint Archive | June 2025

- Examines the benefits of integrating cloud platforms like AWS and Firebase for mobile application backends, focusing on scalability and reliability.
- Details the implementation of cloud-based authentication, database management, and push notification services.
- Offers guidance on cost-effective cloud architecture design for mobile applications of varying scales.

LEADERSHIP EXPERIENCE

Event Coordinator, Students Guidance Cell | Chennai, India | 28 Months

Organized over 15 student development events, improving engagement and support services for 500+ students.

Volunteer Teacher (Math & CS), U&I | Vellore, India | 12 Months

Taught math and computer science to underprivileged students, improving academic performance for over 30 students.

ACHIEVEMENTS AND AWARDS

- Winner, VIT Mobile App Development Hackathon 2023
- First Place, Anna University Inter-College Coding Competition 2022
- Presented a Workshop on 'Introduction to Android Development' at Tech Summit, Bangalore 2023
- Top 5 Finalist, National Mobile Innovation Challenge 2023
