Certifications: Introduction to Human Resources, Basics of Recruitment, LinkedIn Recruiter Essentials

PROFESSIONAL EXPERIENCE

Senior Research Assistant, SUNY RF | New York, USA | March 2025 – Present

- Assisted in sourcing and screening over 100+ resumes for various entry-level positions, reducing initial screening time by 15%.
- Scheduled and coordinated interviews for candidates, managing communication across multiple hiring managers and ensuring a smooth candidate experience.
- Supported the HR team in updating candidate information in the Applicant Tracking System (ATS), maintaining data accuracy for over 200 active applicants.

Junior Intern, Skyvern (Y Combinator) | May 2025 – Aug 2025

- Utilized Boolean search techniques to identify passive candidates on professional networks, contributing to a 10% increase in qualified leads.
- Drafted and posted job descriptions on various platforms, optimizing content for better visibility and applicant response.
- Responded to candidate inquiries promptly, providing information on job openings and company culture, enhancing employer brand perception.

PROJECT EXPERIENCE

Automated Candidate Outreach System | Chennai, India | Jul 2023 – Feb 2024

- Problem:** Manually sending job alerts and notifications to potential candidates is time-consuming and prone to errors, leading to missed opportunities.
- Approach:** Developed a Python script to automate the process of sending mobile alerts and instant notifications to qualified job seekers based on location and job criteria.
- Impact:** Significantly reduced response times for job applications and improved the efficiency of reaching out to a wider pool of active candidates.
- Technology:** Python, Twilio API, Cron Jobs for scheduling, Basic Database for candidate information storage.

ATS Data Optimization for Better Search Ranking | Chennai, India | Mar 2023 – Jul 2024

- Problem:** Inefficient data entry and lack of standardized profiles in the ATS hinder effective search and recommendations for recruiters.
- Approach:** Implemented a data standardization protocol and developed a script to clean and optimize candidate profiles within the ATS for improved searchability.
- Impact:** Enhanced the accuracy and speed of identifying top candidates, leading to a 20% faster placement rate for critical roles.
- Technology:** SQL, Python for data cleaning, ATS API integration, Data Validation techniques.

Candidate Engagement Platform Enhancement | New York, USA | May 2023 – Oct 2024

- Problem:** Low engagement rates with job postings and difficulty in attracting qualified candidates to apply for open positions.
- Approach:** Analyzed existing job posting content and recruiter communication strategies, recommending improvements for clarity, keywords, and call-to-actions.
- Impact:** Increased candidate click-through rates by 25% and improved the quality of applicants by tailoring messaging to specific candidate personas.
- Technology:** Content analysis, A/B testing of job descriptions, CRM integration for personalized communication.

WHITE PAPERS

Leveraging Mobile Technology for Real-Time Recruitment | Int'l Journal of AI Research | August 2025

- Discusses the strategic implementation of mobile alerts and instant notifications to engage passive and active job seekers efficiently.
- Highlights best practices for geo-targeted recruitment and the impact of immediate communication on candidate response and application rates.
- Provides insights into utilizing mobile platforms to build a dynamic talent pipeline and enhance the overall recruitment funnel efficiency.

Optimizing Applicant Tracking Systems for Enhanced Candidate Discovery | Preprint Archive | June 2025

- Explores techniques for data hygiene and profile enrichment within ATS to improve search accuracy and candidate recommendation algorithms.
- Analyzes the role of structured data and keyword optimization in ensuring top placement for relevant candidates in recruiter searches.
- Offers recommendations for leveraging ATS features to proactively identify and engage talent, thereby streamlining the hiring process.

LEADERSHIP EXPERIENCE

Event Coordinator, Students Guidance Cell | Chennai, India | 28 Months

Organized over 15 student development events, improving engagement and support services for 500+ students.

Volunteer Teacher (Math & CS), U&I | Vellore, India | 12 Months

Taught math and computer science to underprivileged students, improving academic performance for over 30 students.

ACHIEVEMENTS AND AWARDS

- Winner, VIT Hackathon 2023 - Best Use of Data in HR Tech
- First Place, Anna University Recruitment Challenge 2022
- Presented 'Future of Recruitment' at Bangalore Tech Summit Fresher's Forum
- Achieved Top 5% Ranking in National Level Recruitment Simulation Contest
